Please refer to Connell Municipal Code for design standards and height requirements:

17.22.050 Fences, hedges, walls—Height requirements.

- (a) Fences, hedges, walls and the like must not be higher than forty-eight inches above curb grade in a required front yard. Hedges are not restricted to height in rear yards. Chain link fences over six feet high are permitted around basketball courts, tennis courts and similar activities if all setback requirements are met.
- (b) On sloping lots, retaining walls or terraces may be constructed with a combined total elevation no greater than that of the adjacent foundation or existing grade of the lot line, whichever is higher. Walls, fences and hedges may be added to this height if they do not exceed the height limits of this section as measured from the established finish grade.
- (c) If a retaining wall is sixty inches or more above the adjacent grade and is located along a lot line, a rail or fence not less than thirty-six inches in height must be placed along the top of the wall. (Ord. 923 § 1 (part), 2012; Ord. 689 § 1 (part), 1997. Formerly 17.69.050).
