ACTION & DISCUSSION ITEMS

Connell Pool Assessment

ALSC Architects completed a facility evaluation at the Connell Swimming Pool House, the assessment covered the existing conditions and future goals of the pool. Rustin Hall was present and addressed the Park Board Committee, he discussed the findings that were conducted to help determine the life expectancy of the City's pool. Sixty recommendations were identified and were presented in a prioritized list. With major work, it was expected that the current facility could be operational for another 10 to 20 years. The building enclosure and interior walls were in operational and structurally sound condition and would continue to provide years of service with continual maintenance. Considering all the recommendations listed by ALSC, the cost would be \$756,000.

Other

Discussion of the future use of the Tennis Courts was held.
